Menus

UWITS screens are connected to a menu. The UWITS Main Menu (also called the Navigation Pane) appears at the left of the screen. The menu has several levels. Each menu option allows the user to navigate to specific screens. Click on a menu item to select it.

Menu items at the first level include an icon plus a text label beneath. Which options appear will vary depend on the user's level of access.

Once a first level function has been selected, the menu expands to display the second level options.

If these second level menus are connected to a third level menu, that is shown by an arrow to the left of the menu option. When the second level menu is selected the menu will expand and the arrow will point down.

This is also true when level three options are connected to a fourth level menu.

Home Page and Tool Bar

The UWITS Home Page shares notifications, announcements and schedules. Throughout UWITS, the Tool Bar offers information and many helpful options.

The UWITS environment and current version number will show to the left side. Production is not specifically labeled, but it will say "Training" or "UAT" when not Production.

Watch the center of the Tool Bar for the Generate Report, Document Management and Snapshot buttons and the action button (⋮). These are available on many screens throughout UWITS.

If the user has added a photo then it will show here. If not then their initials will appear.

The current user's name and context (both agency name and facility name) show in the top right corner.

The **Generate Report** button creates a report showing the details of the current screen.

Document Storage is available on many screens throughout UWITS.

The **Snapshot** button opens a new window with a read-only copy of the current screen.

Hover over the **action button** (⋮) to show any available menu options.

The **Navigation Pane** can be used to navigate to different areas of the system.

Notices will appear on the user's Home page relative to permissions and access.

Logout should be used when exiting UWITS. Do not close the window.

The **Generate Report** button creates a report showing the details of the current screen.

Document Storage is available on many screens throughout UWITS.

The **Snapshot** button opens a new window with a read-only copy of the current screen.

Hover over the **action button** (⋮) to show any available menu options.

If the user has added a photo then it will show here. If not then their initials will appear.

Announcements appear in the middle of the Home Page.

The current user's name and context (both agency name and facility name) show in the top right corner.

The **Generate Report** button creates a report showing the details of the current screen.

Document Storage is available on many screens throughout UWITS.

The **Snapshot** button opens a new window with a read-only copy of the current screen.

Hover over the **action button** (⋮) to show any available menu options.

The **Navigation Pane** can be used to navigate to different areas of the system.

Schedule for user (or multiple users) depending on the user's assigned permissions.

Client Header

The Client Headers identifies and shows helpful information about the client a user is working with.

The diagram illustrates the Client Header components for two clients: CRUNCH, Horatio M. (Cap'n Crunch) and RUNNER, Road. Callouts identify the following fields:

- Client photo (or initials): HC
- Client name: CRUNCH, Horatio M. (Cap'n Crunch)
- Client preferred name: (blank)
- Client age: 21
- Unique Client ID: H9C010101M
- Client Date of Birth: 1/1/2001
- Sex: Male
- Gender Identity: (blank)

Additional callouts explain the Gender Identity field:

- If Gender Identity is blank then this will show the client's sex at birth and be labeled Sex.
- If a Gender Identity has been selected then this space will show the client's Gender Identity and will be labeled Gender Identity.

The second client header for RUNNER, Road shows:

- Client photo (or initials): RR
- Client name: RUNNER, Road
- Client preferred name: (blank)
- Client age: 21
- Unique Client ID: R9R010101M
- Client Date of Birth: 1/1/2001
- Sex: NON-BINARY
- Gender Identity: GENDER IDENTITY

The Client Header collapses to a smaller version after scrolling down.

The collapsed Client Header for CRUNCH, Horatio M. (Cap'n Crunch) displays the following information:

- Client name: CRUNCH, Horatio M. (Cap'n Crunch)
- UCN: UCN
- Unique Client ID: H9C010101M
- Client age: 21
- Sex: Male

Navigation Buttons

These buttons allow the user to move through a particular UWITS module (such as the Client Admission).

The diagram shows the following navigation buttons:

- Back**: Takes you to the previous screen.
- Next**: Advances you to the next screen in the module.
- Save**: Saves your work, but you remain on the same screen.
- Save and Finish**: Saves your work and returns you to the original screen.
- Cancel**: Cancels your transaction and no work is saved.

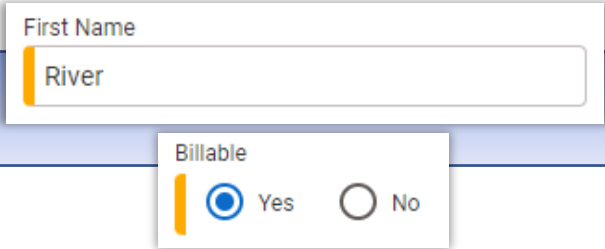

A grayed-out **Back** button is shown with the callout: "Navigation buttons will be grayed out if not applicable."

Navigation Shortcuts

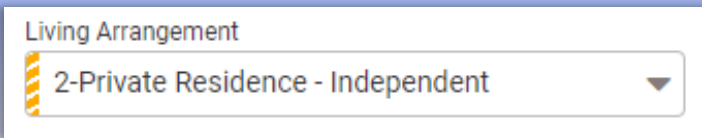

- Tab key** Moves the user from field to field
- Control (Ctrl) key** Holding down the Control key while selecting multiple options in mover boxes allows the user to select and move more than one selection in a mover box.
- Shift key** Holding down the Shift key while selecting options in a mover box will allow the user to choose multiple sequential options.
- Helpful Hints** Moving your mouse over a field will generate a helpful hint box providing additional information about the data field.

Understanding Fields in UWITS

When data is required to save, a yellow bar will be drawn at the left side of the field.

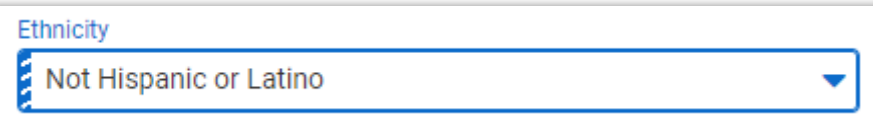

When data is required for completion, a striped yellow bar will be drawn at the left side of the field. Incomplete data will not be submitted to the State through the monthly process.

When data is not required, no bar will be drawn at the left side of the field.

When the cursor is currently in a field, the field will be drawn in blue, including the bar to the left, if any.

Fields drawn in red indicate a validation error. A short description of the error will also be indicated nearby.

When a field is grayed out it indicates that editing of that field is not allowed.

Admission Type

Initial Admission

Initial Admission

Transfer/Change in Service

A drop down box is used where only one entry may be selected from a list of values.

Available Staff

Priestly, Miranda

Selected Staff

Charlton, Emily
Sachs, Andy

A mover box is used where more than one entry may be selected from a list of values. Some boxes may scroll.

Scrolling textboxes have gray bars drawn at the right side of the box. Drag the scroll bar down to view the text not shown on the screen.

Some scrolling textboxes also have gray bars drawn along the bottom of the box. Drag the scroll bar to the right to view the text not shown on the screen.

Follow-up Details

Scrolling textboxes are used to capture notes and descriptions. An example of a scrolling box, this field will accept at least 500 characters. Some scrolling text boxes have no character limits. An example of a scrolling textbox is a Comment field. There are many more examples throughout

Date fields include an icon to the right of the field. Click on the icon to select a date using the mouse.

Admission Date

5/9/2022

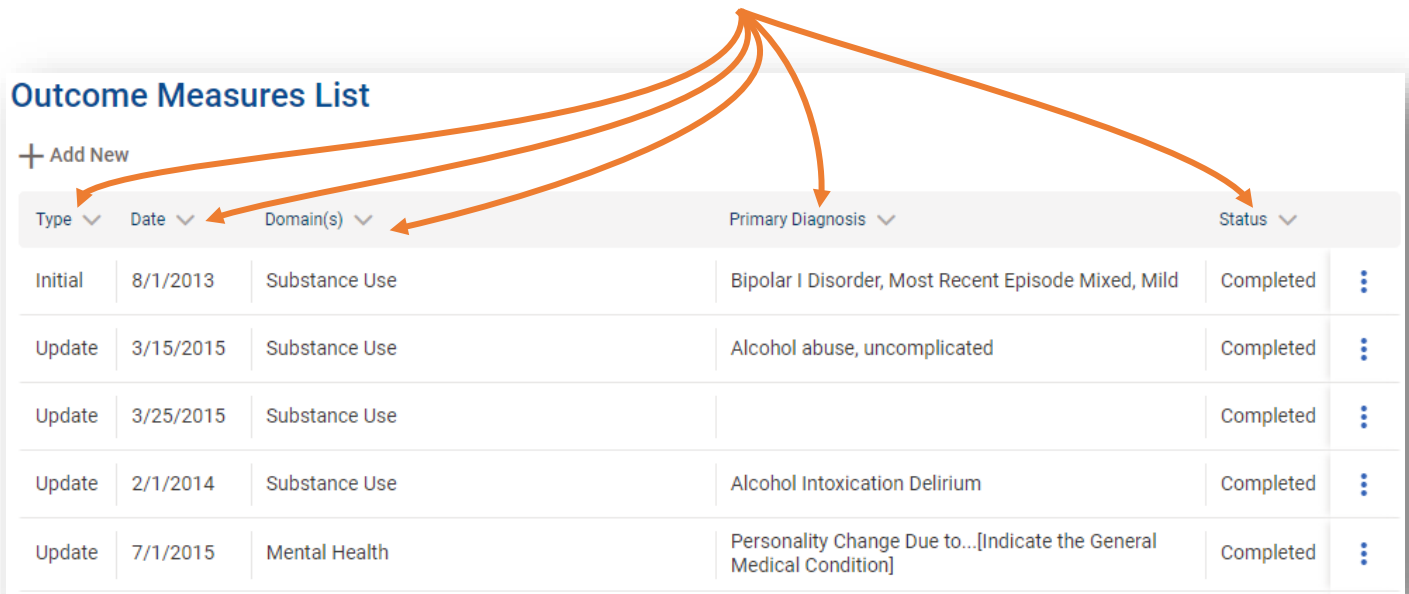

Admission Date

Tables

On a screen with a table, click on the label at the top of any column to sort the table by that column in ascending order. Click again to sort descending. Click again to remove the sort.

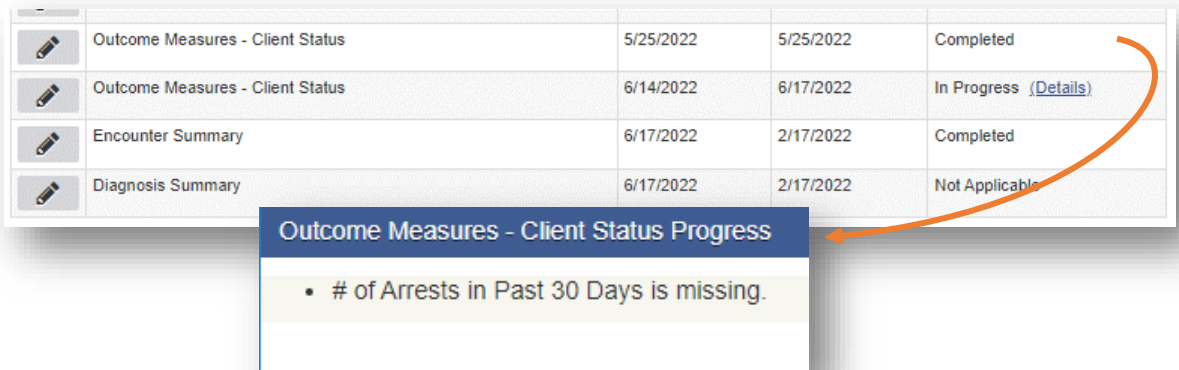

The screenshot shows a table titled "Outcome Measures List" with a "+ Add New" button. The table has columns for Type, Date, Domain(s), Primary Diagnosis, and Status. Orange arrows point from a central point above the table to each of these column headers, indicating that clicking on them will sort the table.

Type	Date	Domain(s)	Primary Diagnosis	Status
Initial	8/1/2013	Substance Use	Bipolar I Disorder, Most Recent Episode Mixed, Mild	Completed
Update	3/15/2015	Substance Use	Alcohol abuse, uncomplicated	Completed
Update	3/25/2015	Substance Use		Completed
Update	2/1/2014	Substance Use	Alcohol Intoxication Delirium	Completed
Update	7/1/2015	Mental Health	Personality Change Due to...[Indicate the General Medical Condition]	Completed

In Progress Activities

Incomplete activities show as **In Progress** in the **Activity List**. Address each of the items listed then recheck the **Activity List** to ensure that it has been completed.

The screenshot shows an "Activity List" table with columns for activity name, start date, end date, and status. One row is highlighted as "In Progress". A popup window titled "Outcome Measures - Client Status Progress" is open over this row, showing a list of missing data points.

	Outcome Measures - Client Status	5/25/2022	5/25/2022	Completed
	Outcome Measures - Client Status	6/14/2022	6/17/2022	In Progress (Details)
	Encounter Summary	6/17/2022	2/17/2022	Completed
	Diagnosis Summary	6/17/2022	2/17/2022	Not Applicable

Outcome Measures - Client Status Progress

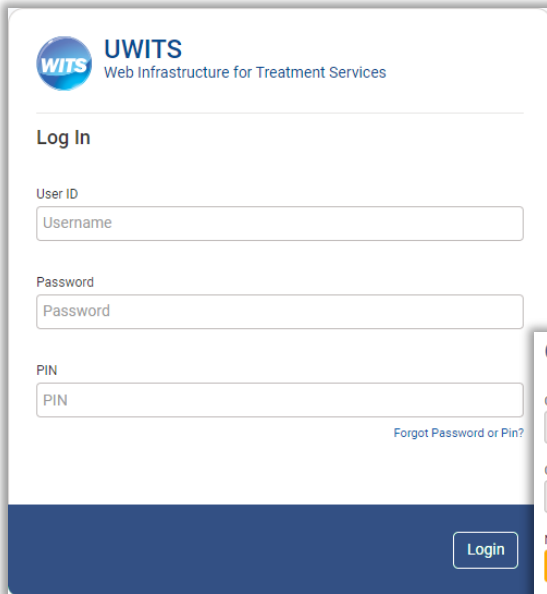

- # of Arrests in Past 30 Days is missing.

Changing a Password

There are two methods for changing a password.

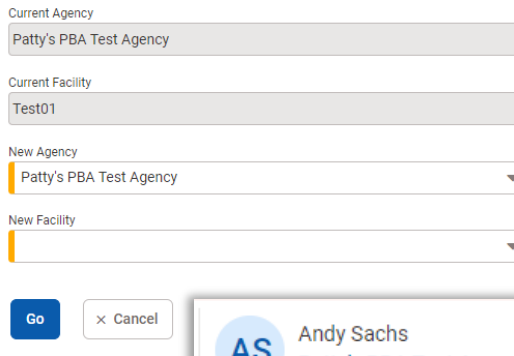

Method 1. Password Both Known and Not Expired

If the password is known and has not yet expired then start by logging in to UWITS.

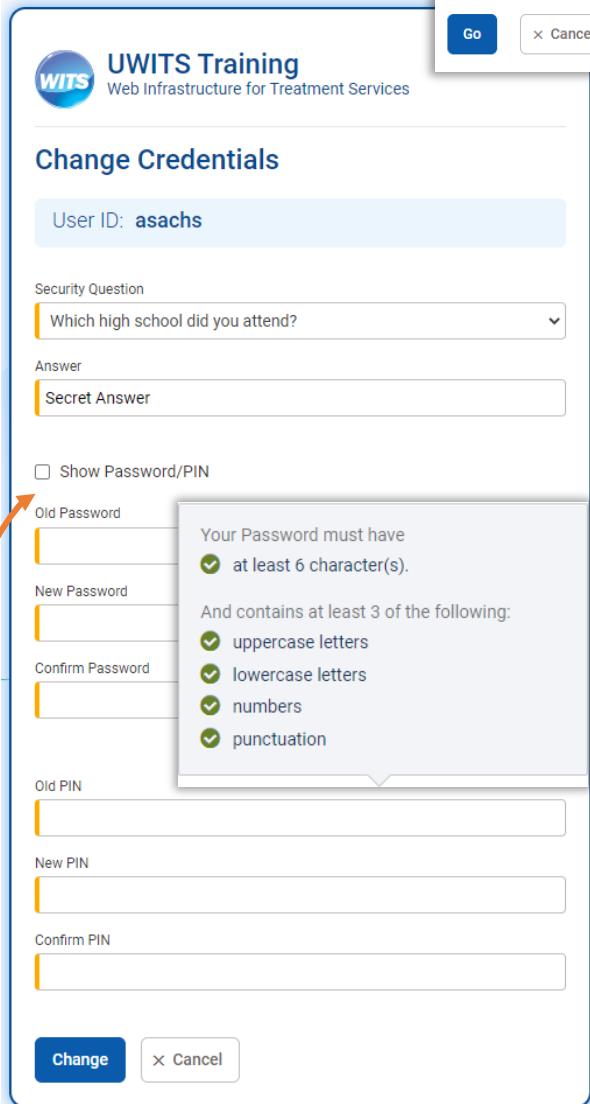

The Log In form for UWITS (Web Infrastructure for Treatment Services) includes fields for User ID (Username), Password, and PIN. A 'Forgot Password or Pin?' link is located below the Password field. A 'Login' button is at the bottom right.

Change Facility

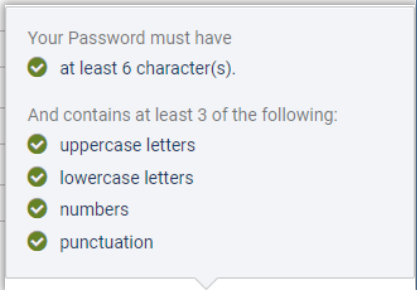

The Change Facility form shows 'Current Agency' as 'Patty's PBA Test Agency' and 'Current Facility' as 'Test01'. It has dropdown menus for 'New Agency' (selected 'Patty's PBA Test Agency') and 'New Facility'. 'Go' and 'Cancel' buttons are at the bottom.

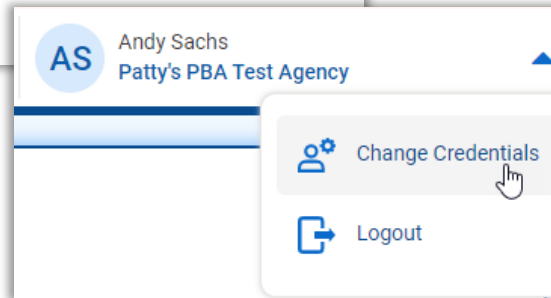

Select a **Facility** then click on **Go**.

The Change Credentials form for UWITS Training shows 'User ID: asachs'. It includes a 'Security Question' dropdown (selected 'Which high school did you attend?') and an 'Answer' field (filled with 'Secret Answer'). There is a checkbox for 'Show Password/PIN'. Below are fields for 'Old Password', 'New Password', 'Confirm Password', 'Old PIN', 'New PIN', and 'Confirm PIN'. A 'Change' button and a 'Cancel' button are at the bottom.

Your Password must have
✓ at least 6 character(s).
And contains at least 3 of the following:
✓ uppercase letters
✓ lowercase letters
✓ numbers
✓ punctuation

The user profile menu for Andy Sachs at Patty's PBA Test Agency shows 'Change Credentials' and 'Logout' options.

Select **Change Credentials** from the left menu.

Select a **Security Question** and enter an **Answer**.

Enter a **Password** and then enter it again to confirm that it has been typed correctly. A box with password requirements will appear to guide your password selection.

You may click on the checkbox by **Show Password/PIN** to show the password as you type it.

Method 2. Forgotten or Expired Password

If the password is not known or has expired then start by clicking on the **Forgot Password or Pin?** link at the **Log In** screen.

You have not set your Security Question/Answer and cannot proceed with your request.
Please contact your UWITS Training administrator or supervisor.

Check your email for an email with a link to reset your credentials.

Click the link then enter the **Answer** to the **Security Question** then click on the **Submit** button.

At the next screen, enter a **Password** and then enter it again to confirm that it has been typed correctly. A box with password requirements will appear to guide your password selection.

You may click on the checkbox by **Show Password/PIN** to show the password as you type it.

Getting Started with Multifactor Authentication

UWITS now displays a slightly different login screen. Instead of asking for a PIN, the screen says **TOTP**.

To login successfully, you will need a TOTP app.

To find one, search for "TOTP Authenticator" in your cell phone's app store or in a web browser. Select and install an authenticator then proceed to the next step.

Please see your Navigator for assistance in selecting a TOTP Authenticator app.
