

Salt Lake County Youth Services MILESTONE TRANSITIONAL LIVING PROGRAM OVERVIEW

Our mission is to provide services for young adults 18-21 at risk of or experiencing homelessness. Our goals are to provide them with safe housing; to stabilize employment, build skills, to connect them with ongoing resources and support within the community; to help them become self-sufficient so that they can start their lives and make homelessness rare, brief, and non-reoccurring.

Our program offers referral services for housing assistance, supporting community connections, life skill workshops, job training skills and connections to higher education.

The Milestone program is a substance free environment. Alcohol, tobacco, smoking (including e-cigarettes) are not allowed on the premises. Illegal drugs are prohibited. All participants in the Milestone Transitional Living Program are subject to random drug testing.

Participants set individualized monthly goals and are supported by a collaborative team of case managers and mental health professionals to meet these goals.

To be successful participants need to:

- Complete “Milestones” by participating in activities and accomplishing goals
- Participate in Milestone activities and stay in contact with their mentor
- Demonstrate that they can pay program fees (program fees start at \$200 a month for the first three months and fees will continue to increase by \$50 every three months.
- Follow the non-negotiable terms (no drugs or alcohol, no violence, no weapons or explosives, no pets, no overnight guests, no criminal activity, no violating the policies and agreements).
- Follow the Respect Code and honor it by respecting staff and roommates.
- Be responsible for their personal care, money management, safety, and cooperation with each other and your community supporters.
- Become independent: get the skills, positive friendships, and income they will need to live on their own.

Funds paid for program fees will be saved for participant’s time of transition from the program. All funds in this savings plan will be paid to help with their moving on to independence.
